

Learn Proper Waste Management

1 Sort your trash into different bins.
With color coding and proper labelling, you can inspire many others to dispose of their garbage properly.

2 Choose to reuse
You can maximize these items yourself or bring the reusable items to centers where it will be sorted and resold accordingly.

3 Recycle
Don't know where to put those recyclables? Find the nearest local recycling center or know the schedule of your neighborhood recycling pick up.

4 Start Composting
Food and garden waste don't belong with the rest of your garbage. Use a compost pile or bin for quick, easy, and proper food waste disposal.

5 Practice proper disposal
Know your neighborhood's garbage pick up schedule. Remaining garbage should be placed in a sealed trash bag and into the right bin.
