

# Notice of variation with introductory note

Environmental Permitting (England & Wales) Regulations 2010

---

Bywaters (1986) Limited

Bywaters Recycling and Waste  
Management Centre  
Gateway Road  
Leyton  
London  
E10 5BY

Variation application number  
EPR/SP3091NQ/V010

Permit number  
EPR/SP3091NQ

# Bywaters Recycling and Waste Management Centre

## Permit number EPR/SP3091NQ

### Introductory note

#### This introductory note does not form a part of the notice

The following notice gives notice of the variation of an environmental permit.

This variation is to add a further separate storage area for baled RDF produced on site that is destined for an Energy-from-Waste incinerator. In addition a revised Working Plan has been submitted that takes into consideration the movement of the baled waste from one permitted area to another and the length of time it will be stored.

The schedules specify the changes made to the original permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number

#### Status log of the permit

Description	Date	Comments
EAWML 80147 Issued	15/01/1987	Bywaters (1986) Limited

Variation determined EPR/SP3091NQ	03/06/2014	Varied permit issued.

End of introductory note

## Notice of variation

Environmental Permitting (England and Wales) Regulations 2010

The Environment Agency in exercise of its powers under regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 varies

**Permit number**  
**EPR/SP3091NQ**

**issued to:**

**Bywaters (1986) Limited** (“the operator”)

whose registered office is

**Lea Riverside**  
**Twelvetrees Crescent**  
**Bow**  
**London**  
**United Kingdom**  
**E3 3JG**

company registration number 02055155

to operate a regulated facility at

**Bywaters Recycling and Waste Management Centre**  
**Gateway Road**  
**Leyton**  
**London**  
**E10 5BY**

to the extent set out in the schedules.

The notice shall take effect from 03/06/2014

Name	Date
<b>Avril Varley-Brown</b>	<b>03/06/2014</b>

Authorised on behalf of the Environment Agency

## **Schedule 1 – conditions to be deleted**

None

## **Schedule 2 – conditions to be amended**

The following conditions are amended as a result of the application made by the operator.

Condition

- 3.(a)** The location and layout drawings together with the statement of intended methods of operation contained in the document titled "Working Plan" and any later drawings or written statement received by the Environment Agency in substitution for or in augmentation of such drawings or statements, are hereinafter referred to as the "Working Plan" and give details of how operations are to be conducted at the facility.
- 3.(b)** Notification shall be made in writing to the Environment Agency of any proposed change in the actual conduct of operations from the proposals shown in the Working Plan as altered by any previously notified changes, at least one month before the proposed change is implemented.
- 3.(c)** Subject to the terms of the permit the holder shall conduct its operations in accordance with Table 1.2.
- 4.** Sufficient management and technical supervision shall be provided at the facility throughout operating hours to ensure that operations comply with this permit and the Working Plan.
- 6.(a)** The terms of this permit and Working Plan shall be made known to any person who is given responsibility for the management or control of the facility.
- 26.** Asbestos waste shall be stored in the approved container, constructed and maintained as described in the Working Plan and positioned in the area prescribed. The container shall be kept sealed and padlocked at all times other than during immediate loading of the waste material into it.

## **Schedule 3 – conditions to be added**

The following conditions are added as a result of the application made by the operator.

Condition

- 39.** The operations specified in table 1.1 shall not commence until the measures specified in that table have been completed.

<b>Table 1.1 Pre-Operational Conditions</b>	
<b>Reference</b>	<b>Pre-Operational Measures</b>
IP1	<p>Prior to the storage of baled RDF in the additional area (as shown in amended plan at Schedule 4 of this variation) a maximum storage timescale shall be submitted and agreed in writing with the Environment Agency.</p> <p>Once approved in writing by the Environment Agency this agreement shall form part of the Working Plan specified in Table 1.2 of this permit.</p>

<b>Table 1.2 Operating techniques</b>		
<b>Description</b>	<b>Parts</b>	<b>Date</b>
Working Plan	All	Received 23/05/2014 – dated May 2014
Environment Agency guidance “How to comply with your environmental permit”	All	Version 6 - June 2013
