

Bywaters Waste Journey

Waste Streams

- Food
- Recyclable
- Glass
- Waste for incineration

Sustainable Tips

- Always carry a reusable bottle.
- Donate unused items.
- Repair broken appliances instead of disposing.
- Practice portion control.
- Buy or donate at charity shops.
- Go paperless.
- Repurpose old containers.

Recycling Facts

- The UK recycles around 380,000 tonnes of plastic bottles a year.
- 90% of all drinks cans sold in the UK annually are made of aluminium.
- On average, the UK household uses 500 glass bottles and jars every year.
- Coffee cups contain a polyethylene lining to build resistance against heat, making them difficult to recycle.
- Annually food loss accounts for about 4.4 gigatons of greenhouse gas emissions.
