

FEAST WITH US

6.4 million tonnes of edible food goes to waste each year in the UK, while millions of people face food insecurity. Feast With Us tackles both at once.

ABOUT FEAST WITH US

Feast With Us is a London-based charity tackling food poverty and insecurity by transforming surplus food that would otherwise go to waste into nutritious, balanced meals for people experiencing vulnerability and hardship. They also create welcoming spaces that build confidence and connection, while providing nutrition education, cooking skills and Healthy Eating on a Budget programmes to support healthier, more independent lives.

WHY WE PARTNER WITH THEM

We've proudly supported Feast With Us for four years. Partnering with them lets us:

- **Tackle food poverty** – nutritious meals reach people facing hardship
- **Reduce food waste** – surplus food is rescued, cooked, and eaten rather than thrown away, cutting CO₂e emissions and conserving water
- **Empower communities** – nutritional education and cooking skills build healthier, more independent lives
- **Meet sustainability goals** – our shared commitment to the environment and social responsibility drives collective action against food waste and insecurity

OUR IMPACT SO FAR

Through our four-year partnership, we have:

- Hosted 16 volunteering sessions
- Engaged 143 volunteers
- Contributed 52.5 hours of volunteer time
- Provided 741 nutritious meals to people in need
- Saved 323.5 kg of food from going to waste
- Prevented 133 kg of CO₂e emissions
- Conserved 29,115 litres of water

We arrange cooking volunteering sessions with Feast With Us, bringing our clients together to prepare and cook nutritious meals for people in need. Tasks include peeling, preparing, cooking, cleaning, and packaging. It has been incredibly rewarding to work alongside Feast With Us. If you would like to hear more about our partnership, please contact sustainability@bywaters.co.uk
